Subject: Letter of commendation for Maud Lelièvre's candidacy as IUCN Councillor for the West Europe region

On behalf of the Trustees of the Jane Goodall Institute Global, it is my pleasure to endorse the candidacy of Dr. Maud Lelièvre for the position of IUCN Councillor representing the West Europe region.

The Jane Goodall Institute Global has had the privilege of working closely with Dr. Lelièvre, who joined the Board of Directors of the Jane Goodall Institute France. With more than two decades of commitment to conservation, both within institutional frameworks and through her work with various NGOs, Dr. Lelièvre has consistently demonstrated her dedication to supporting local communities and fostering harmony between people and nature.

We believe that Dr. Maud Lelièvre brings the experience and vision essential for an IUCN Councillor. Her deep-rooted dedication to conservation, combined with her strong ability to bridge local priorities and global strategies, positions her as an outstanding candidate for this role.

Sincerely,

Erika Helms
Global Manager
